Children's are the future of our country. Let us meet together to help protect them.

Safe child, safe tomorrow, safe India.

INTRODUCTION

Welcome to the world of SHIVOM SECURANATION, we are grateful to invite you to join us for one step towards securing children. Child safety is major concern in our locality, they get kidnapped, missing and also they bunk the school. As per recent survey and study an average 2185 children being reported missing each day in a world. So for reducing these problems after long research and hard work we developed a tracking system. It can be helpful to reduce all type of problems of parents and school management regarding their children.

“That we are facing from a long time”

PROBLEMS

Need & requirement of this tracking system comes from the origin of trouble & unwanted incidents happened with children, for a long time in our country. As per the recent survey, 797,500 children (younger than 18) were reported missing in a one-year period of time studied resulting in an average of 2,185 children being reported missing each day in a world and in India since 2013 it will increase about 75%-80%. Since 2013, as many as 29,663 children (below 18 years of age) have gone missing in the capital and Delhi Police have failed to trace 19,832 of them, data show . So child safety is a major concern in our locality, day by day our surrounding and school atmosphere goes bad and insecure. Many problems that are experienced by both parents and school management

- Children get kidnapped and missed.
- They bunk from school, coaching, and home.
- Parents feel insecure regarding the safety of child during school hours and same when their child is away from them.
- Parents are always afraid when their child is out for playing.
- The school face s many problems regarding their safety and management.
- Sometimes improper communication between parent and teachers.
- Time waste during formalities in school and in pickup and drop of the child.
- Many parents encounter an accident or an unwanted incident with their child.

CONCLUSION

Children are the most precious and valuable people in a parent's life. No parent imagines losing sight of their child – until it happens. Even if you lose your child for just a short moment, you have likely experienced that terrifying feeling of extreme panic. Get the peace of mind with the Mini tracking device, S-TRAX. Whether you are unsure if a family member has left school on time, made it to the bus, arrived home, or if they have just wandered out of sight S-TRAX keeps you updated in real time.

Anyone who's been a parent has experienced the terror of not being able to find their child, whether at an amusement park, in a store, at a station or anywhere else kids can get lost – which is anywhere, sometimes even right in your own neighborhood. The S-TRAX tracker helps caregivers to locate and find their wandering children before anything tragic happens! And mobile application helps you to resolve other problems (fees, homework, notice, and Attendance). S-TRAX digital management system resolved problems of the school.

OUR EVOLUTION

We focused always to develop a safe and advanced society. That's why our team tried to give an advanced Tracking system to society they need to meet and surpass the challenges they face. That's why we go the extra mile to design and manufacturing innovative solution using the latest technologies In order to meet requirements both now and in the future . And finally from long research and hard word of three years we developed S-TRAX tracking system which is capable to resolve all kind of problems happened with children's in our country.

S-TRAX tracking system has lots of features that are very supportive of school management and parents and it is also very user-friendly. Our Tracking system is developed by the focus on the combination of the technique of RFID and GPS. S-TRAX tracking system is based on three major components which make it advanced and different.

OUR PRODUCTS

S-TRAX
DEVICE

S-TRAX
DIGITAL MANAGEMENT SYSTEM

S-TRAX
MOBILE APPLICATION

- IT IS VERY COMPACTED
- IT IS HEAT PROOF
- IT IS WATERPROOF
- LONG LASTING BATTERY
- EASY TO FIT
- WATER SENSOR & FIRE SENSOR
- CAPABLE OF 24X7 TRACKING
- HIGH RADIO FREQUENCY
- S.O.S. BUTTON (OPTIONAL)
- ANTITHEFT

- EASY TO OPERATE
- HIGHLY SECURE
- ADVANCED SOFTWARE
- HIGH CAPACITY SERVER
- HIGH-FREQUENCY READERS
- AUTOMATIC INFORMATION UPDATION
- HIGH CAPACITY STORAGE
- PLATFORM FOR ALL ACTIVITY
- SMART GATE WITH SENSOR
- DIGITAL SURVEILLANCE SYSTEM

- NOTIFICATION
- TRACKING ON MAP
- GEOFENCE WARD
- DATA ANALYSIS
- LEARNING PROGRAMS
- ONLINE ATTENDANCE RECORD
- EMERGENCY ALERTS
- ONLINE HOMEWORK
- ONLINE FEE PLATFORM
- ONLINE RESULT AND REPORT

WORKFLOW

Providing device to Student

Initially the process of RFID & GPS creation of students

Installing machines in office

Initially the database, server sensors readers & surveillance system

Mobile App to School Management & parents

Providing mobile app for school for accessing program

Management and maintenance

Technical support 24x7 technical support

BENEFITS & PRIVILEGES TO PARENTS

- Keeping right track and records of your children.
- Online platform through the mobile application for fees, homework, important notices and report.
- Reduce your time wasted during school formalities.
- Reduce your time wasted on wait for the bus at bus stop.
